

# BOSS BATTLE ARENA

**Final project**

# “Galaga”

(with our twist)

# Prototype

# Sprites

(based on the prototype)

# Rules Of The Game

**1.**

The player can move around the map using WASD and shoot with the Spacebar.

**2.**

If you run out of hearts , you lose the game and if the enemy runs out of hearts, then you are the winner of the game.

# Users & Accessibility:

Who is going to be the audience:

**1. Everyone who  
wants to test  
out our game!**

**2. Mostly  
targeting teens  
and kids**

Accessibility:

**How this  
game was  
made more  
accessible**

# Explaining the Code:

(part of it):

```
def collision_player():  
    global player_hearts_index  
    for bullet in enemy_bullets:  
        if(  
            player_left_edge() < bullet_right_edge(bullet) and  
            player_right_edge() > bullet_left_edge(bullet) and  
            player_bottom_edge() < bullet_top_edge(bullet) and  
            player_top_edge() > bullet_bottom_edge(bullet) and  
            bullet.isvisible()  
        ):  
            bullet.hideturtle()  
            player_hearts[player_hearts_index].hideturtle()  
            player_hearts_index = player_hearts_index - 1
```
